

28 objectives and 146 action tracks

1. Optimize and renovate 100% of the envelope of all buildings by 2030. *4 action tracks.*
2. From today, preserve and increase the current and remaining area of brown and green spaces (61%) on various UNIL sites and improve its ecological quality. *6 action tracks.*
3. Provide UNIL with a mandatory Sustainability Charter (tender) regarding the construction and renovation of buildings. *6 action tracks.*
4. Consume exclusively renewable energy, distributed between on-site autonomous production and/or off-site green production, but in Switzerland and (co)financed by UNIL, by 2050. *9 action tracks.*
5. From today, impose a moratorium on the construction of new buildings, except for those already planned that must comply with the charter. *9 action tracks.*
6. Encourage the UNIL population to use bicycles (including electric). *7 action tracks.*
7. Limit the number of people coming to the campus in motorized personal vehicles (thermal and electric) while ensuring accessibility for everyone. *7 action tracks.*
8. Reduce the distance traveled by air. *9 action tracks.*
9. Reduce the distance traveled by individual motorized transport. *2 action tracks.*
10. Offer healthy and quality food in campus restaurants, cafeterias, and vending machines, following the criteria of the World Health Organization, with the best nutriscore by the fall of 2024. *4 action tracks.*
11. Reduce plastic and aluminum packaging. *1 action track.*
12. Offer a food selection including organic and seasonal products from Switzerland. *8 action tracks.*
13. Internalize all catering and grocery services by 2032. *2 action tracks.*
14. Offer a vegetarian or vegan dish for CHF 3.- for students by the fall of 2024. *2 action tracks.*
15. Reduce the weight of total animal-origin foods offered at UNIL from 27% to 5% by the fall of 2028. *5 action tracks.*
16. Centralize 95% of purchases (materials, consumables, equipment, furniture) by 2025. *6 action tracks.*
17. Inventory 95% of UNIL's equipment and mutualize anything that can be shared (furniture, equipment, consumables, research materials) by 2025. *5 action tracks.*
18. Reduce the mass of new equipment purchased by UNIL (consumable materials, equipment, furniture, etc.) related to all types of laboratory work. *4 action tracks.*
19. From 2030, establish and follow environmental and social criteria defined by an interfaculty commission for 95% of research (all types of research combined). *5 action tracks.*
20. Reduce digital-related waste. *4 action tracks.*
21. Reduce the purchase of new electronic equipment. *8 action tracks.*
22. Reduce energy consumption related to digital technology (proportionally to the number of UNIL members). *9 action tracks.*
23. Directly invest UNIL's fortune in ecological transition. *3 action tracks.*
24. Invest 100% of UNIL's fortune in sustainable investments at Banque Cantonale Vaudoise by 2030. *4 action tracks.*
25. Regularly communicate on challenges and measures related to ecological transition to the UNIL community and the general public by 2025. *4 action tracks.*
26. Improve working conditions for the UNIL community and all those involved in its functioning by providing goods and services from 2025. *3 action tracks.*
27. Train 100% of the UNIL community in sustainability by 2025. *2 action tracks.*
28. From 2025, consider sustainability, represented by the balance between ecological impact and social benefit, for 100% of staff recruitment and evaluations. *4 action tracks.*

4 additional action tracks are not linked to any specific objective.
