

# Himalaya-Karakorum-Tibet workshop 2018

## 10-12. September, Lausanne, Switzerland

The Organizing Committee is pleased to invite you to the 33<sup>rd</sup> edition of the workshop series!  
Please find the main information below, as well as on the website: [www.unil.ch/hkt2018](http://www.unil.ch/hkt2018)  
We hope to see you at the HKT2018!

### Scientific program

Session themes will include – but are not limited to – the areas of:

- structure and dynamics on various spatial and temporal scales,
- processes at depth, at surface, and their connections,
- natural hazards of the HKT region.

Keynote speaker:

- Peter Molnar, University of Colorado, Boulder, USA

Best PhD student presentation awards:

- to recognize outstanding oral and poster presentations,
- contributions evaluated by the Scientific Committee.

### Some practical information

- It will be the participants' responsibility to book appropriate accommodation. A list of suggested places will follow.
- You may need a visa to enter Switzerland. Please inquire in time about the rules applicable to your status.
