Assessing the 'nature' of a 'forest transition' in Central Vietnam (R4D project 2017-2023)

Ecosystem services and social-ecological resilience in locally managed forest landscapes

Christian KULL (Professor, Institut de géographie et durabilité, Université de Lausanne)
NGO Tri Dung (Senior Researcher, Institute of Resources and Environment, Hue University)
TRAN Nam Thang (Vice-Dean, Faculty of Forestry, Hue University of Agriculture & Forestry)
Roland COCHARD (Chercheur FNS senior, Institut de géographie et durabilité, UNIL)
NGUYEN Thi Hai Van (Doctorante FNS, Institut de géographie et durabilité, UNIL)

Vietnam's forest transition (?)

Meyfroidt & Lambin (2008a)

Vietnam's forest transition (?)

Payments for Forest Environmental Services

PFES has become a national policy aiming to incentivize individuals and communities to sustainably manage and protect their forests by providing compensation for their efforts.

2007
Forest Development Strategy (VFDS)
2006-2020

2008
Decree 05: Forest Fund (FPDF) established

2008
Decision 380: piloting PFES (2 provinces)

2010
Decree 99: PFES nationwide

2016
Amended Decree 99: more FES integrated

297.5 million USD/5 years

A “miracle”

Vietnam has been praised internationally for its great achievements in forest conservation and enhancement of local livelihoods.

What`s in it for environment and society?

changes in forest cover and features

socio-economic changes in local context

wider socio-political / economic context

sustainability-quality forest transition ?
