European Society of Criminology, September 10<sup>th</sup> 2021

# 1. Introduction

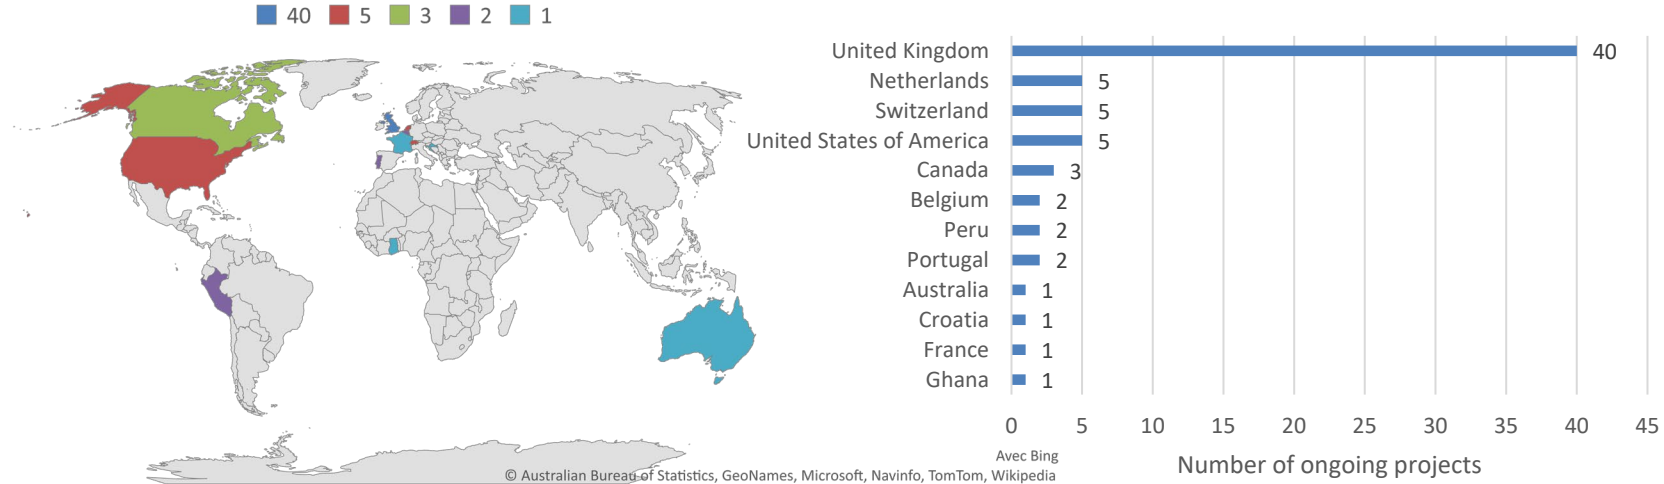

- ESC Working Group: International collaboration
- Aim of the study: **Identify, using different keywords, all current projects that focus on the impact of COVID-19 on different areas of criminology**

## 2. Method

- Search engine: Google
- 4 keywords + related terms: Research – Project – Criminology – COVID-19
- Languages: English, French, Spanish, Portuguese, German
- Time period: February 1st 2020 – August 30th 2021 (*daterange*)
- Inclusion criteria:
  1. Must contain the keywords;
  2. Must reflect the keywords;
  3. Institution to which the author is attached must be legitimate;
  4. Must be in the first 5 pages displayed by Google.

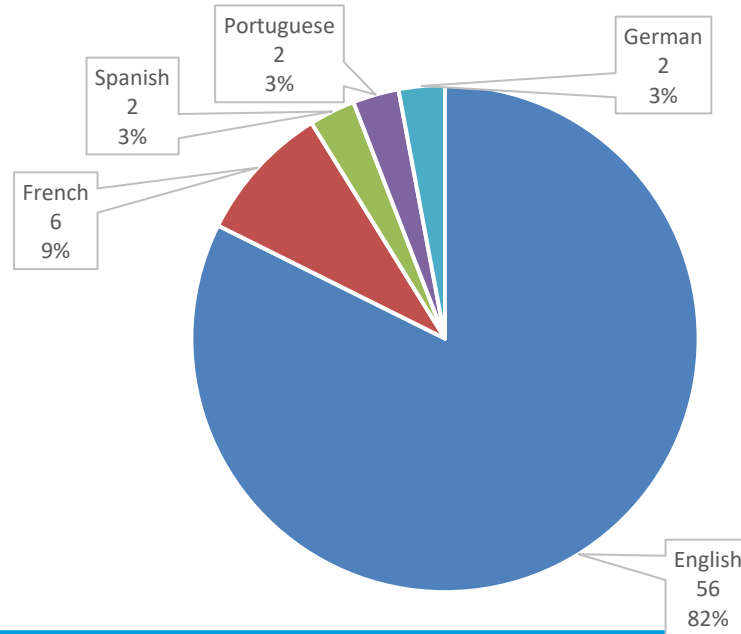

### 3. Results

Number of ongoing projects worldwide about the impact of COVID-19 on different areas of criminology  
(total: 68)

### 3. Results

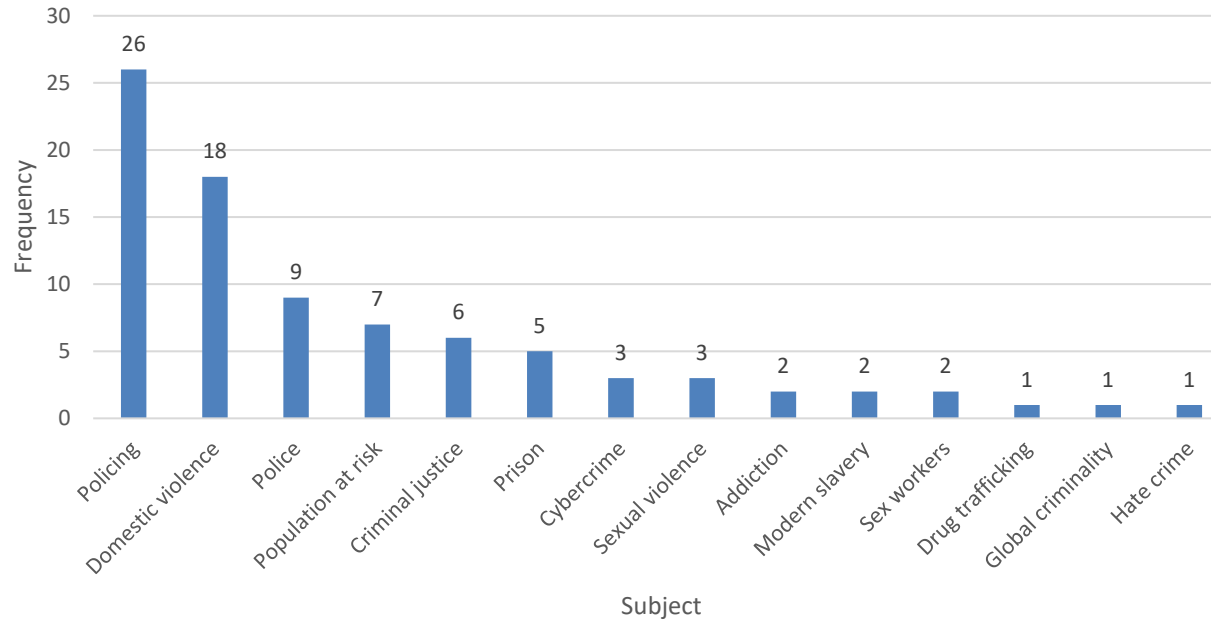

Distribution of languages of ongoing projects about the impact of COVID-19 on different areas of criminology

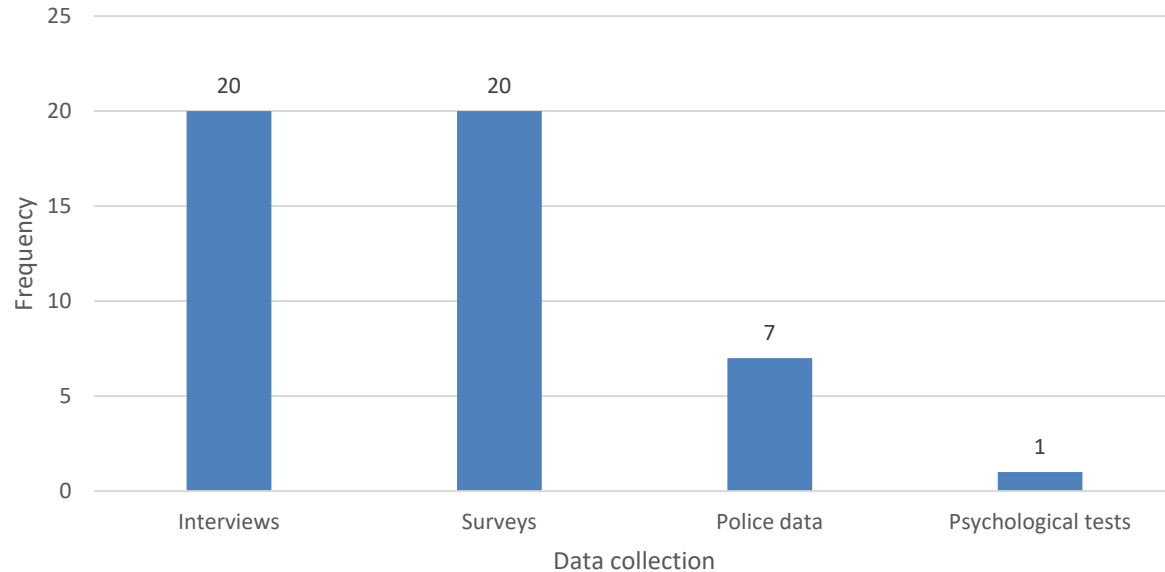

### 3. Results

Impact of COVID-19: Distribution of ongoing studied criminological subjects

### 3. Results

Data collection of ongoing projects about the impact of COVID-19 on different areas of criminology

## 4. Limitations

1. Institution/Country transparency;
2. Website legibility;
3. Languages excluded from this research;
4. Indiscreet Google algorithm.

## 5. Conclusion

- Reliable method to find research projects around the world
- Could be repeated within several months or even years: virus still ongoing, vaccines, ...
