

## Science Day «Brain-Hormones-Nutrients Interactions»

- Organizer(s)** Fanny Langlet and Sophie Croizier, DSB-UNIL
- 0.25 ECTS without and 1 ECTS with presentation
- Summary** Junior Scientific Day on neuroendocrine systems - aiming to meet and discuss with people working on neuroendocrine systems in the Lemanic region. The day will be organized in different sessions, in which PhD candidates present their research work.  
The day is a great opportunity to practice oral presentations and to go through question/answer sessions. We will also discuss and share ideas about our respective neuroendocrine projects.  
**Note: PI's and postdocs are welcome for discussion. Possibility for postdocs to present their work if time allows.**
- Date** 25 January 2023 from 9-17h
- Location** Seminar room of Rue Bugnon 7 in Lausanne, 6th floor ([Directions](#))
- Evaluation** Based on a short oral presentation and participation in the discussions (i.e. active preparation and involvement in the science day). Participants without former knowledge should at least [READ THE REVIEW HERE](#) to engage in discussions.
- Registration** The course is limited to 40 participants. Register before December 31 by filling the information here:  
<https://tinyurl.com/NeuroendocrineDay2023>.
- If applicable, title and (small) abstract for your presentation must be sent before January 6 by e-mail to [fanny.langlet@unil.ch](mailto:fanny.langlet@unil.ch) and [sophie.croizier@unil.ch](mailto:sophie.croizier@unil.ch).
