1206 Genève

MedLem18 meeting, 1st November 2018

Next-Gen-Imaging: From MICROSCOPY to RADIOLOGY

www.unil.ch/medlem/

Organizing & scientific committee:

Dr Olivier Gaide, Dr Maxime Pellegrin, Prof. Aurélien Thomas and Dr Natacha Turck

Final Scientific Program

08.45 – 09.15	Registration & welcome coffee
09.15 – 09.30	Welcome to the MedLem Dr Olivier Gaide
09.30 – 10.00	<u>Keynote 1</u> <i>“Interest of small animal imaging for translational research”</i> Dr Didier Colin
10.00 – 11.00	<u>Elevator Pitches Session</u> 1. <i>“Endobiotics for phenotyping of human cytochrome P450 enzymes: Use of metabolomics for the identification of new CYP2D6 endogenous biomarkers on healthy volunteers”</i> G. Magliocco 2. <i>“Pre-clinical models to study malignant pleural mesothelioma. Biological characterisation of in vitro, in ovo and in vivo models and molecular imaging by [18F]FDG-microPET/CT”</i> O. Bejuy 3. <i>“Effects of high-intensity exercise in normoxia and hypoxia on endothelial function and muscle energy metabolism in healthy mice”</i> J. Lavier 4. <i>“Imaging early myocardial ischemia by MALDI mass spectrometry”</i> A. Aljakna
11.00 – 11.30	Coffee break
11.30 – 12.00	<u>Keynote 2</u> <i>“The ultimate live cell imaging tool”</i> Dr Mathieu Frechin
12.00 – 12.30	<u>Keynote 3</u> <i>“New paradigms in cardiovascular MRI”</i> Prof. Matthias Stuber
